### **Summer Store Training**

Firestone DECA is a comprehensive high school with 54 minute periods. The DECA store is open for three consecutive lunch periods.

DECA students come into the school store one week prior to the start of school to train on store procedures and operations. The training is conducted by the previous year's juniors.

Training is broken down into three areas:

- Cash drawer management, and auditing
- Inventory management and cookie production
- Pricing, and stocking

Each training section has two trainers. Students have a specific outline and skill set that will be reviewed, practiced and evaluated. Students must attain a 93% in order to work in the school store.
